## PRV (Pressure Reducing Valve)

### Technical data

#### Main features and materials

- Compliant with Standard EN 1567
- Sound class II - Lap [dB (A)] < 30
- Body: CW617N (UNI EN 12165) nickel plated brass
- Piston: techno polymer reinforced with glass fiber
- Gaskets: EPDM peroxide
- Seat: EN 10088 - 1.4305 stainless steel (AISI 304)
- Spring: EN10270-1 SM zinc plated steel

#### Field of applications

- Max. working pressure (PN): 25 bar
- Outlet pressure regulation range: from 1 to 5,5 bar
- Outlet pressure factory set: 3 bar
- Working temperature range: 0 °C (no freezing) to 130 °C
- Compatible fluids: water, glycol solutions (with 50 % max. concentration of glycol), compressed air (except 2")

Made of Brass

# Line Strainer for Bathroom & Kitchen

Can filter out the source of water in the sand, gravel, pipe well rust slag and other precipitation particles, Through regular washing. Will intercept the dirt from the sewage pipe out, Protection of household water equipment from the pipe network pollution, Unnecessary damage or maintenance of the faucets etc. This product can be used as a central water purification system or water heater and other household electrical appliances, such as pre filtration, it can be effective for the equipment and pipeline to play a protective role, Inhibit the formation of calcium carbonate and magnesium carbonate, With iron ion reaction, The purpose of forming dynamic protective film on the inner wall of the pipe is to achieve the purpose of the corrosion and the water proofing.

## Core advantage

1. Transparent cover space plastic materials
2. Stainless Steel mesh
3. Automatic Flushing Design

## SPL. USE FOR

Automatic & Semi Automatic  
Washing Machine, RO & Machine

Line Strainer for Bathroom & Kitchen (Heavy)  
(Recommended for Kitchen & RO)

Size : 31mm

## Pressmatic Taps

Pressmatic taps are equipped with hydro-mechanical activation; just a slight touch of the hand and it automatically closes after about few seconds. The system is practical, guaranteed to be long-lasting, resistant to vandalism, and increased hygiene: once it is activated, the user does not have any contact with the product. Besides being practical, the products are extremely long-lasting.

**Fixed Cycle** : Products with this technology release water only when the handle is pressed and released avoiding damage caused by vandalism, and preventing water from being wasted in attempts to leave the tap on.

Urinal Push Cock

Cat. No : **5595**      Made of **Brass**

## Urinal Sensor

### **Direct Flush-Mains-flushing urinal valve with infrared activation**

Direct Flush is an infrared sensor controlled urinal valve. The Direct Flush automatically flushes the individual urinal after use, ensuring the highest level of hygiene from the minimum volume of water. Direct Flush removes the need for the auto-flush cistern and associated plumbing used in traditional urinal installations, which flush all urinals intermittently even if they have not all been used.

## Long Pillar Cock

Meet your own requirements.

With your own very personal Comfortzone.

The height of a faucets determines your flexibility in the use of water. Do you just want to have more room to move while washing your hands, or do you want to have enough room to be able to fill a watering can with ease? One thing is certain: the higher the faucets, the more flexibility you will have in your daily life.

We have a name for the individually utilizable area between washbasin and mixer:

## Health Faucets Brass

Health faucet is a triggered nozzle that delivers a spray of water to help cleaning / washing after toilet use. It is placed in a holder that is fitted on the wall, near the toilet seat. It is connected from the faucet/tap via a connection pipe.

Powerful. Clean. Efficient. That's the easy part. Choosing from our wide array of designs, water-saving health faucet technologies and innovative features is the hard part. To help you decide, we've included a brief list of things to consider and a gallery of our health faucet designs. To learn more and see additional views of each.

Health Faucets can also be used for Salon, Spa and Gardening

# INNOVATION *for* the BATH

## Telephonic Shower ABS

Plato hand shower are available in a wide range of designs function and prices. Our product have sand filter, silicon nipples for easy scale removal, and a filter to cut water consumption by up to 50%. All attachments are in the universal standard size of 1/2".

Plato Shower exudes a feeling of lightness and sophistication. Its beautifully designed chrome-plated housing combined with the sculpted handle is reminiscent of the soft and soothing flow of water. The unusually flat and practical design generates a feeling of elegant weightlessness. Systematic elegance: with its graceful and subtle design, Plato Hand Showers ideal for integration into a wide variety of shower concepts. Plato hand Shower is available with multiple jets with a smooth scroll adjuster for changing between the two flows.

## Led Ceiling Rain Showers

In the evolution of the modern concept of living, especially in the bathroom, the shower has increasingly assumed a leading role and Plato has interpreted the new market needs, developing a shower line, which is used not only in the residential sector, but in hotels and in all luxury bathrooms.

### Operating the Shower

Its is effortlessly operated with an efficient transformer which manages the power fed to the LED and touch panel controls the cycle of colours. The diverter manages the water flow and the types of flow.

#### Controller instruction :

1. Touch panel there are 4 buttons and a pulley key, the functions are as follows.

: you could turn on/off controller at any state;

: mode key, you can choose a different kind of color change, total 11 kinds of change patterns, press the key of long time, you can turn on/off the voice prompts;

: It is used for increasing the output signal brightness or speed, once pressed, the series of brightness or speed increase 1, total 100 series.

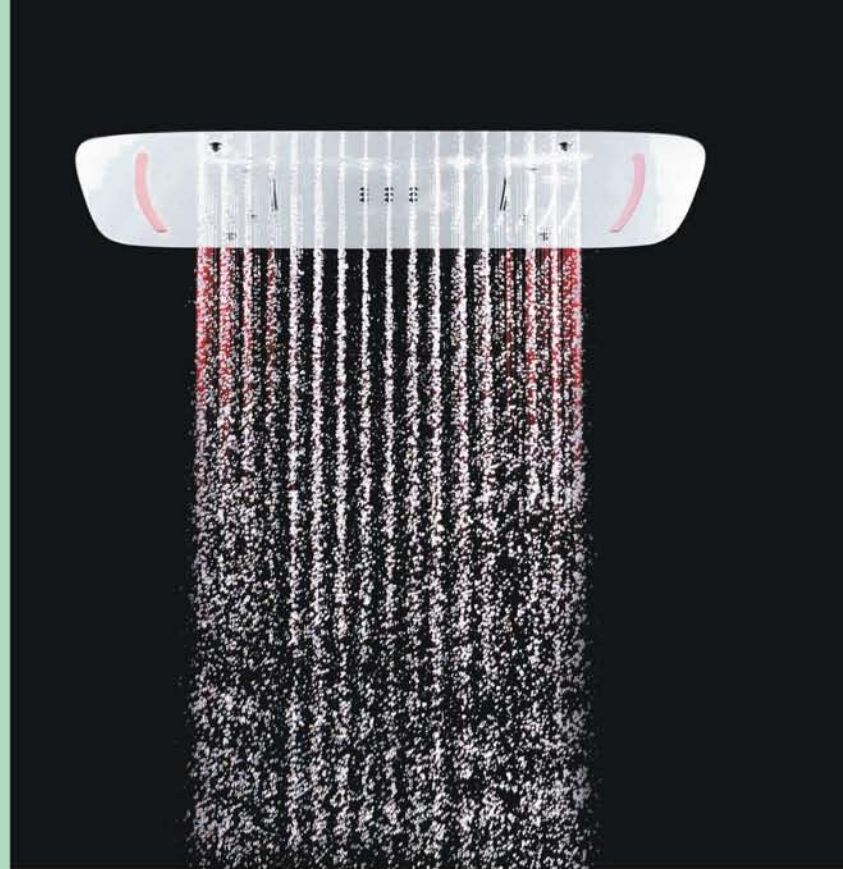

: It is used for reducing the output signal brightness or speed;

#### Remote

Multi Color pulley touch Key, color mode selection key, up to 64 touch points

## Glass Shelf

### Designed for living

We use toughened glass with chrome plated highlight, and the timeless quality of their design ensures seamless integration into any bathroom style. Smooth edges make them pleasant to the touch, while the clear lines create an overall high-quality impression on the wall. Glass is particularly suitable for use in the bathroom because it is hygienic, easy to clean and scratch-resistant. The Plato Glass Shelves can be combined in a variety of ways, it goes perfectly with Plato Bath Accessories and Bathroom Products.

## **GRAB BARS AND OTHER ACCESSORIES FOR A BARRIER-FREE WASHROOMS**

Functional solutions that make the bathroom a completely safe and accessible place for everyone.

Using the bathroom independently is very important. For this reason, our wide range of grab bars and accessories for a barrier-free washroom, manufactured in various materials (stainless steel, ABS, etc.) and in different finishes (satin, bright, white, etc.), provide a better quality of life to all those, without distinction, who in one way or another do not have full physical capability or sensory function.

All our grab bars and shower seats have an ergonomic and functional design that assists in the functional limitations of those with a disability.

Our product portfolio includes a wide range of grab bars, shower seats, mirrors, etc., conceived and designed to allow the bathroom to be used in complete safety and full independence for those with mobility problems.

## Wall Mounted Folding Shower Seat & Baby Nursing Station

Wall Mount Folding Shower Seat with Leg for Elderly and Disabled. This is a sturdy wall mounted fold up shower seat is ideal for a shower, bath or wet room especially for those who would benefit from mobility solutions, sitting down while showering including the elderly or disabled. Pure Antibacterial Nylon and reinforced stainless steel frame are not only sturdy but also withstand the watery environments. When the seat is down, the single leg is pushed into where the floor meets the wall, making this a very sturdy and strong seat can hold weight up to 250 KG. The fold up stool can fold up against the shower wall to save space in the shower when it's not in use.

- Hospital Reinforced Card
- Hold up 200kg
- Stainless Steel
- Non-Slip Nylon Covered
- Sturdy and Comfortable
- Fold-up to save space

Free

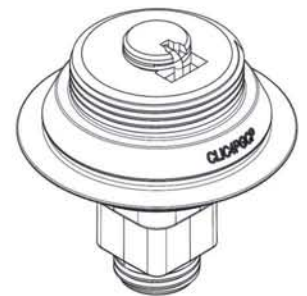

No Insect or  
cockroach

## What is the PLATO'S 21 Click Clack System ?

The Plato 2 in 1 Click Clack system is the innovative patented system made in Italy specifically designed for the world of click clack wastes. What distinguishes the 2 in 1 Click Clack system from the other solutions already on the market, is the offer of 2 products in 1: an opening and closing mechanism (Click system) already applied on the plug, replaceable with the Always Open linchpin to revert the waste into "Always Open ", all in one package. It's a universal solution for washbasin & bidet with and without overflow. The tight gasket on the mechanism transforms the plug's cap into a decorative cover, available in different materials and finishing.

Always open Linchpin

Click System

## Why The PLATO'S 21 Click Clack System is innovative?

### INTERCHANGEABLE COVER

The cover becomes a decorative element available in Brass, Stainless steel, Ceramic, Square Shaped and in all the desired finishing

### H-LOCK SYSTEM

Using the appropriate always open linchpin is possible to revert the waste from Click Clack to always open simply replacing the two mechanisms

### UNIVERSAL

The Click System and the always open are suitable for all the Click Clack wastes.

### THIGHTNESS GASKET

With the sealing membrane applied directly on the mechanism, the plug's cap become a decorative cover

## Assembling

Plato's 21 Click Clack System are provided with Click system assembled to the cover and with always open linchpin and leaflet in individual packages.

# Ceramic Disc Cartridge

## TECHNICAL CHARACTERISTICS OF THE CERAMIC DISCS:

Material:	<b>AL<sub>2</sub>O<sub>3</sub></b>
Surface roughness Ra:	<b>0.3 μm</b>
Contact surface area:	<b>50-80%</b>

## TECHNICAL CHARACTERISTICS OF THE CARTRIDGE:

Opening angle:	<b>25°</b>
Mixing angle:	<b>110°</b>
Max temperature:	<b>90°C/194°F</b>

Recommended tightening torque:  
**12 Nm / 106 lbf·in**

### Pressure test:

Pneumatic:	<b>6 bar / 87 psi</b>
Hydraulic:	<b>35 bar / 500 psi</b>

### Flow rate:

(0.5 bar / 7.5 psi, test faucet, EN 817)

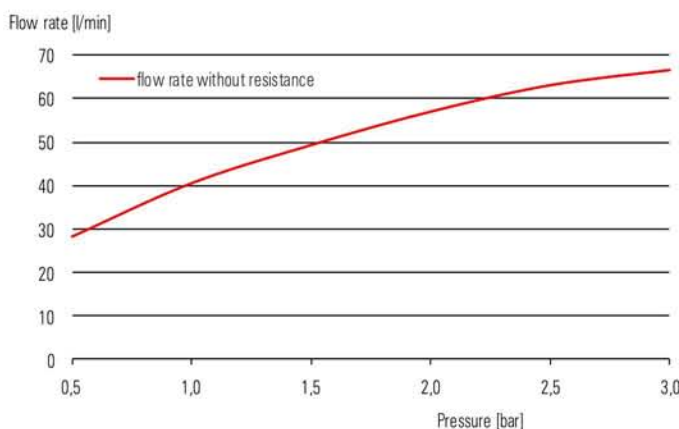

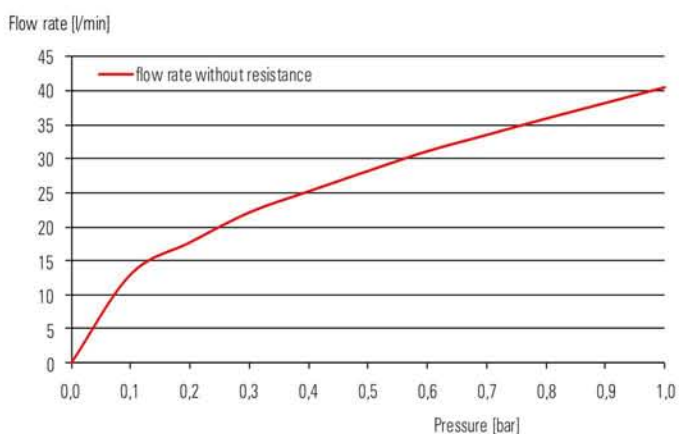

**28.2 l/min / 7.5 gpm** without resistance

### Endurance test:

EN 817	70 000 cycles
ASME A 112.18.1M	500 000 cycles

## FLOW RATE CURVES

Test faucet, without resistance

Single Lever Cartridge

Cat. No : **4424**  
Size : **45mm**

## A Single Temperature Regulation Unit

Thermostatic Cartridge

Cat. No : 4420

## TECHNOLOGY & FEATURES

With a specially optimised thermostatic element and a highly advanced design of the regulation components, Vernet® has developed the CA43 cartridge to give you the best temperature regulation and safety in accordance with various standards, NF EN 1111 (NF077 certification), ASSE1016, NHS D08,...

### One geometry for a wide range

A wide range of cartridges with various regulation standards and flow capacities for your different needs ( shower, bath, central thermostat, high and low pressure, high flow,...) with one single geometry

Standard temperature range: 15-60°C (59-140°F)

Specific temperature ranges are available upon request

### Anti-limescale

A high technology thermoplastic polymer is used to minimize lime scale adherence

### Safety

The anti-scald function is individually checked on each cartridge

### Presetting

Optionally, Vernet can pre-set the cartridges at a specific temperature, allowing integration in the valve without use of a thermal test rig

CA 43 type	0.2 bar 2.9 psi	3,1 bar 45 psi
	NHS D08 LP	ASSE (Free Outlet)
	¾" E5933	¾" 6753
CA43N	18 L/min (4.8 gpm)	88 L/min (23 gpm)
